

## Environmental Policy

Jonesco (Preston) recognises its responsibility to manage the environmental impacts of our activities, products, and services in all areas of our business and is committed to:

- Satisfying regulatory, statutory, customer and all other applicable environmental requirements.
- Managing our aspects, material use & products to minimise their effect on the environment and prevent pollution.
- We are committed to the continual improvement of our Environmental Systems through the setting of objectives and targets which are an integral part of our Management Review. Progress against these objectives and targets will be regularly monitored and updated.
- Identifying significant environmental aspects and subsequent impacts to planned, new or modified work activities.
- Aiming to reduce our risk to the Environment through documented procedures & regular measurement & monitoring.
- Specifically minimising the environmental impact for the life cycle; (including disposal) of plant, equipment and other physical assets owned by the company.
- Including & informing all relevant interested parties of our Environmental performance as appropriate.
- Taking appropriate opportunities to minimise waste and to re-use and recycle materials whilst considering new technologies and best practice where appropriate.
- Cooperating with, responding to and recording the views of interested parties including stakeholders, customers and the general public.

The Managing Director and Senior Managers fully support this policy and will actively communicate and promote the importance and relevance of it and our Environmental Systems to all our staff. It will be reviewed at least annually.

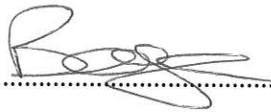

To meet our commitments all staff must comply with the requirements placed upon the business and in addition to the practices documented within our Operating Procedures and Operating Instructions which conform to the conditions and scope of our ISO 14001 certification.

This Environmental Policy will be made available to all staff at induction and via the Company SharePoint.
