

## 4-DRUM IN-LINE SPILL PALLET

07/2026-v03

### Key Features

- » Safely store up to 4 x 205 litre drums in a line configuration, making the most of available space
- » Manufactured from rotationally moulded polyethylene for toughness, durability and a seamless finish
- » Superb resistance to UV rays, hazardous chemicals and corrosion
- » Sump captures spills of up to 235 litres in the event of drum rupture or leak, which meets or exceeds most international spill containment regulations
- » Forklift pockets enable transportation and relocation by forklifts or pallet trucks
- » Strong platform provides maximum load of 1250 kg, including integrated viewing gaps for quick inspection
- » Robust design demonstrates high resistance to impacts and shocks, even in extreme temperatures
- » Resistant to oils, acids, alkalis and other aggressive chemicals
